"I heard it through the Grapevine"

The Software Center sends periodic informational messages which are intended to provide heads-up/real time information to Software Professionals throughout the Command. These "information messages" are not intended to by-pass or replace the formal communication process <u>or</u> to task any DCMD or CAO activity. Forwarding of this e-mail within the DCMC Software Professional community and to other interested DCMC employees is encouraged.

Your feedback is appreciated.

Australian Exchange Program

You may recall in a past Grapevine (Issue 99-4, dated 5/27) our discussing an exchange program with the Australian government. Attached below is a letter related to the program. Although the program has not yet been formally approved, this letter will serve as a heads-up of what the program involves.
